

Colleague,

I hope you and your families had a safe and productive August.

Thank you especially for your feedback on and support for our Restore, Rebuild, Renew project.

From day one, our goal was to present a unified Commitment to America offered by Republicans across the country, while pointing out the very real contrasts we have with our colleagues on the left.

Since late July, we received over 150 policy submissions from you and your teams. Working with our committees, caucuses, and the Trump Administration, we have distilled those submissions into a one-page framework that encapsulates our mission and plan moving forward.

Specifically, we will detail a plan with concrete objectives and metrics to:

- **Restore Our Way of Life** by defeating the virus and keeping America healthy; ensuring the safety and security of all communities; and preserving our freedoms under the Constitution
- **Rebuild the Greatest Economy in History** by getting America working and adding 10 million new good-paying jobs; ending our dependence on China and enhancing our economic security; and upgrading America's critical infrastructure
- **Renew the American Dream** by making sure that every child in every neighborhood can attend an excellent school; honoring our veterans' service to America and hiring our heroes; and supporting our citizens' success, now and in the future

We will discuss the overall plan at our Monday conference meeting and follow that with an all-Member roll-out event on Tuesday. This timeframe puts us ahead of the September 23 release of the Pledge to America and the September 27 release of the Contract with America.

Now, more than ever, our constituents deserve to know exactly where we stand and how we plan to combat the radical Democrat agenda to **defund** our police, border patrol, and military; **dismantle** our Constitution and democratic institutions; and **destroy** our economy and standing in the world.

I look forward to seeing you next week and I thank you for your continued commitment to our conference and our nation.

Best,

Kevin
